5. In order to better clarify the record, the examiner wishes to point out Inaba et al. (WO 2002/39433 A1) and the English language equivalent US Patent App. No. 2003/0215675 A1. Inaba et al. disclose a magnetic recording medium comprising a magnetic layer, wherein the magnetic layer comprises a continuous matrix, a ferromagnetic portion that is different from the continuous matrix, the continuous matrix comprises Cr (*U.S. Patent App. '675 A1 Paragraphs 0033, 0119, 0138, 0172 and Figures*). However, the Examiner notes that Inaba et al. fails to anticipate or render obvious the claimed limitations since, in the very least, Inaba et al. fail to disclose whether Co is in the continuous matrix; the concentration of Cr in the grain, if any, the concentration of Cr in the matrix, nor does Inaba et al. appear to inherently meet the above limitations.
